

## Further important information:

A mortgage is a long-term financial commitment. To ensure it is affordable for the term you have asked for, we may look for more information to see how you will continue to repay it, for example if you plan to retire before the end of the mortgage.

**Warning: You should consider the total cost of the mortgage loan that may be offered to you, including any potential additional cost of an incentive offered with it.**

You can find information, including online tools to compare mortgages and to calculate mortgage repayments in the Money Tools section of the website [ccpc.ie](http://ccpc.ie).
