

Haven Mortgages Limited is part of Allied Irish Banks p.l.c., and Haven mortgages are available exclusively through regulated Mortgage Intermediaries. Your Mortgage Intermediary will provide you with clear financial advice designed to help you find the mortgage that best suits your needs and circumstances.

You will need to be over 18 and no matter if it's your first home or you are on the move to somewhere new, your Mortgage Intermediary will be able to advise you on a whole range of mortgage options in as much detail as you need.

A mortgage from Haven is a credit facility that enables you to purchase a residential property or to secure your borrowing against a residential property. It is a medium to long term facility and the repayment terms can be negotiated for a set number of years (maximum up to 35 years). The facility is repaid with interest and there are variable and fixed interest rates available.

We have prepared this brochure to give you an overview of Haven products and services and to explain some of the most commonly used terms in the mortgage process.

1 What type of Customer are you?

- > **First time buyer:** this is a person who has not previously had a mortgage to buy or build a house or apartment before. This can be either individually or jointly with another person.
- > **Next time buyer:** this is a person who has previously had a mortgage, or has owned one in the past, and is looking to move to a new home.
- > **Equity release/Top Up Loan:** if the value of your property is greater than the mortgage you owe on it, this is described as equity in your property. You may be able to release this equity for items such as home improvements for example.

2 How much can you borrow?

- > **First time buyer:** Up to 90% loan to value is available for first time buyers. Up to 80% loan to value is available for a studio apartment valued at €275,000 or above or a one- bedroom property. We do not lend for the purchase of studio apartments valued at under €275,000.
- > **Next time buyer:** Up to 80% loan to value is available for the next time buyer.
- > **Top Up Loan:** Up to 80% of the value of your home, minimum top up amount of €10,000, with an exception to the minimum amount if the application for top up is for grant aided renewable energy and other energy efficient home improvements.

Additional Relevant Information for Top Up Loans

- > We cannot facilitate non-euro currency top-ups, i.e. if the currency of (some of) your income or assets you intend to use to repay the mortgage loan is not euro, and/or you live in a European Economic Area (EEA) state that is not in the euro zone, the mortgage loan is a foreign currency loan.
- > Your life assurance may be affected by topping up your mortgage and will need to be reviewed in terms of cover and adequacy in line with your new total borrowings. Home Insurance policies can be impacted if you're extending or altering the structure of your home and you should contact your insurers to check if any changes will affect your cover.
- > **What you can borrow:** will also depend on what you can comfortably afford to repay monthly. This typically should not exceed 35% of your disposable income, however this may vary according to individual circumstances.

3 Interest rate information

- > **Interest Rate:** this is the actual rate at which interest is charged on the amount that is borrowed.
- > **Annual Percentage Rate (APR):** APR is the overall cost of borrowing of the loan amount. It takes account of all the costs involved over the term of the loan, such as any setup charges and the interest rate.
- > **Fixed Rate:** this type of rate guarantees a certain rate over a fixed period of time. This means that your monthly repayments are the same every month for the duration of the fixed rate period. If you choose to repay the loan early or switch to another rate during the fixed rate period, you may have to pay an early breakage charge. This early breakage charge is the additional interest expense that the lender may incur as a result of a customer breaking their fixed rate contract. Details of how an early breakage charge is calculated are provided later in this document.
- > **Variable Rate:** with this type of rate your repayments may increase or decrease over the life of your mortgage.
 - > A variable interest rate can go up and/or down resulting in your monthly repayments rising and/or falling over the life of your mortgage loan.
 - > A variable interest rate gives you more flexibility. You can make extra mortgage repayments or clear your mortgage earlier than agreed without having to pay any penalties.
 - > You may have the option of switching to a fixed interest rate (if offered by us at that time).
 - > Our Loan to Value (LTV) variable rate is available to owner occupier mortgage loans. We have a range of LTV variable rates depending on the amount you are borrowing relative to the value of your home.
 - > As your loan to value may decrease over the term of your mortgage, you may be able to move between LTV rate bands.
 - > LTV rates are not available to owner occupier customers at the drawdown of a new top up loan.
- > **Split Rate:** here a portion of your mortgage amount is on a fixed rate and the remainder is on a variable rate.
- > You or your legal representative can ask your Mortgage Intermediary or us to give you an idea of how your current or existing mortgage interest rate compares to any other rate we may offer at that time.

4 Some commonly used terms explained

- > **Annuity Mortgage:** all Haven mortgages are annuity mortgages. With an annuity mortgage, each month you pay back some of the amount borrowed (called capital) along with interest on the loan. At the end of the mortgage term you will have paid back all the capital and interest charged and the property will be yours.
- > **Capital:** this is the amount you borrowed to purchase the property. The interest you will pay is calculated on this amount.
- > **Drawdown:** once all the conditions of the mortgage application have been fulfilled, Haven will send the mortgage funds to your solicitor to allow the purchase to take place. This is known as drawdown.
- > **Equity:** this is the difference between the value of the home and mortgage amount owed on it.
- > **Loan Offer Letter:** this is the contract between you and the lender which lays out the terms of the mortgage. A copy is also sent to your solicitor.
- > **Loan to Value (LTV):** this is the amount you are borrowing expressed as a percentage of the value of the property you are buying.
- > **Term:** this is the length of time over which you will repay the loan.
- > **Valuation:** a valuation report, completed by an approved valuer, is a requirement for all mortgage applications. This report will give an indication of the market value of your property, but is not a detailed survey or structural report.

5 Insurances you will need

Your Mortgage Intermediary will be able to advise on the insurances you will need with your Haven mortgage.

- > **Home Insurance:** these policies normally have two parts – buildings cover and contents cover. You must have adequate buildings cover in place to meet the cost of rebuilding your home should it be damaged, for example, by fire or flood. You may also want to include contents cover which covers items such as furniture and electrical appliances for example. If you are buying an apartment your buildings cover may be part of the contract you have with your management company.
- > **Life Assurance:** a life assurance policy is a requirement for all Haven mortgages. If you were to die before your mortgage is paid off, this policy would pay off the remainder of the loan amount clearing the mortgage in full, subject to the terms and conditions of your policy.
- > **Mortgage Repayment Cover:** this is an optional insurance that protects you should you become unable to work due to an accident or illness. This type of policy does not cover you if you become unemployed for other reasons.

6 Fees and Charges

Please note that there may be other third party fees and charges, additional to those listed below, payable in certain circumstances (e.g. Solicitor's fees, Surveyor's fees, unpaid direct debit, unpaid cheques, etc). The table of fees listed below are third party fees which are paid directly to the valuer or the Haven Solicitor for title and security cases.

Home Mortgage Regulatory Information

Important Regulatory Information

Warning: If you do not keep up your repayments you may lose your home.

Warning: If you do not meet the repayments on your loan, your account will go into arrears. This may affect your credit rating, which may limit your ability to access credit in the future.

Warning: You may have to pay charges if you pay off a fixed-rate loan early.

Warning: The cost of your monthly repayments may increase.

Warning: This new loan may take longer to pay off than your previous loans. This means you may pay more than if you paid over a shorter term.

Warning: If you switch to an alternative interest rate, you will not be contractually entitled to go back onto a tracker interest rate in the future.

WARNING: YOUR HOME IS AT RISK IF YOU DO NOT KEEP UP PAYMENTS ON A MORTGAGE OR ANY OTHER LOAN SECURED ON IT.

THE PAYMENT RATES ON THIS HOUSING LOAN MAY BE ADJUSTED BY THE LENDER FROM TIME TO TIME. (Applies to variable rate loans only)

Note: The above notice in respect of adjustments to repayment rates will not apply during any period when the loan is at a fixed rate. If you or your dependants intend to use the property as a principal place of residence, you must show evidence of mortgage protection insurance, unless you are exempt under the Consumer Credit Act 1995. Maximum loan to value of Owner Occupier Residential Properties - 90% of purchase price or valuation whichever is lower. Lending levels are subject to monthly repayment burden, typically not exceeding c. 35% of borrowers disposable income and will vary according to individual circumstances. Loan requests considered on the basis of proof of income, financial status and demonstrated repayment capacity (including capacity to repay at higher interest rates). Loans not available to people under 18. Mortgage loans require to be secured by a mortgage and charge on the subject property. A typical €100,000, 20 year mortgage for an Owner Occupier Residential Property with LTV greater than 80% will have a variable interest rate of 3.15% and APR 3.2%, and 240 monthly repayments of €562.14. If the APR does not vary during the term of the mortgage, the total cost of credit, i.e. the total amount repayable less the amount of the loan, would be €35,127.77 (inclusive of valuation report fees of €215). The total amount repayable would be €135,127.77. The effect of a 1% increase in interest rates for such a mortgage will add €51.77 to the monthly repayments. Execution and registration of the mortgage deed will involve payment by you of your solicitor's fees, outlays and registration fees. The amount of solicitor's fees can be determined by negotiation with your solicitor, who will also inform you of the amount of the outlays and registration fees. A valuation of the property must be carried out by a valuer on our panel of valuers prior to loan approval. This valuation will cost you €150 which will be refunded to you if your loan application is unsuccessful. If the valuation of the property is undertaken more than four months before the requested date of drawdown of the loan or of the final stage payment, a re-valuation will be required which will cost you €65. If the conditions of your loan require a final valuation following completion of the building of the property, renovations or repairs to it, this will cost you €65.

The following is applicable only where the interest rate is FIXED

An early breakage charge is payable in the following cases where the fixed interest rate period has not expired:

- (a) if a capital payment or full repayment is made to the Loan, or
- (b) if the Loan is converted to a variable interest rate, or
- (c) if the Loan is converted to another fixed interest rate.

The formula to calculate the early breakage charge is : amount (A) x remaining term in days divided by 365 (U) x difference in cost of funds (D%)

Definition of terms used in this formula:

(A) amount – The amount being repaid early or the amount being converted to a variable rate or another fixed rate period.

Original cost of funds – The cost of funds for Haven for the fixed rate period at the time the fixed rate period commenced.

Cost of funds for the fixed rate period remaining – The cost of funds used will be as of 5pm the day previous to the request to calculate the early breakage charge.

(U) remaining term in days – Remaining number of days left before the fixed rate is due to expire.

(D) difference in cost of funds – The difference between the original cost of funds and the cost of funds for the fixed rate period remaining.

Worked example:

Assume a 5 year fixed rate loan. Full repayment of €100,000 after 3 years (A); remaining term 2 (U); difference in cost of funds 2% (D). The early breakage charge would be as follows: (A) 100,000 * (U) 2 * (D) 2% = €4,000.

At the end of a fixed interest rate period, the interest rate on your loan will default to the standard variable interest rate then offered by Haven at that time unless you choose an alternative interest rate, if on offer by Haven to you at that time. Our standard variable interest rate is a variable interest rate. If the interest rate on your loan defaults or otherwise converts to a variable interest rate then offered by Haven, your interest rate and the amount of your instalments could increase or decrease during the term of your loan and your interest rate could be higher than the fixed interest rate that applied during any fixed interest rate period.

Approval in principle checklist

The following list details the standard documentation required to progress a mortgage application. We may require further information based on your personal circumstances or to further clarify any documentation or information you submit to us before we can consider your application complete. Your Mortgage Intermediary will talk to you about what documentation is required for your application.

How long it takes us to deal with your application
